

Trunk Security Plates

for Ford Crown Victoria

Reverse light housings can be broken to gain access to the trunk release in less than 10 seconds.

Protect Your Valuable Equipment

Havis® has designed a simple anti-theft solution for the trunk of the Ford Crown Victoria. The C-3054 prevents access to the trunk release through the reverse light housing on either side of the license plate.

- Pair of trunk security plates
- Designed to prevent access to trunk release through reverse light housings
- #12 gauge steel plates with black powder coat finish
- Easy installation and does not hamper bulb replacement
- Includes all mounting hardware

Do not compromise expensive equipment:

- Computer hardware
- Video systems
- Firearms & ammunition
- All other equipment in trunk

Unprotected area behind reverse lights.

Havis Trunk Security Plate provides full coverage and denies access to trunk release.
