## **Delta Rota-Beam<sup>™</sup>** Rotating Super-LED<sup>®</sup> Lightbar

- Sleek, multi-level warning lightbar featuring new Super-LED "rotating" light modules.
- Two to six Rota-Beam Super-LED, 100% Solid-State "rotating" beacons plus optional angled mirrors.
- No moving parts. No motors to wear out or malfunction.
- Multi-level for 360° of unobstructed warning.
- Cruise light mode standard on outboard Rota-Beam (adjustable).
- Clear polycarbonate outer domes, standard, are hard-coated for scratch and fade resistance.
- Low current draw, moisture and vibration resistant.
- 20' cable standard.
- Available in Red, Blue, Amber and White. Split (front/rear) colors available.
- Add up to eight lower level 500 Series Linear-LED lightheads.
- Five year HDP<sup>®</sup> Heavy-Duty Professional warranty.

#### **Options**

**Dome:** Color upper end domes • Color center single or dual domes.

Upper Level: Single or dual color beacon • Angled mirror.

Lower Level: Single or dual LR11 take-down lights • Single or dual LR11 alley lights • 500 Series Super-LED lightheads To help you build your lightbar, Whelen's WeCad™ build-a-bar program is available on our website at: www.whelen.com

# Lightbars

**LEGACY** 

Com showing Legacy's ultra low profile compared to Liberty low profile lightbar.

- New Diamond Optix<sup>™</sup> (Patent Pending) linear reflector optic design.
- Linear combo "Multi-Angled" corner modules produce light forward and rear and at the critical 45° angles. Four combo modules produce 360° warning signal.
- DUO technology has two different color LEDs in the same module, allowing it to flash to different colors.
- True DUO+, whether one color or two. Each segment can be operated independently or at the same time, creating the first true DUO lightbar, without loss of intensity.
- Photocell automatically dims at night and still meets SAE Class I requirements in low power mode.
- One piece UNI-DOME construction with a single sealing point.
- Hard-coated lenses shrug off environmental damage.
- Legacy "plug and play" into the CenCom Sapphire™ or CanTrol™ controller. A WeCan<sup>®</sup> controller module is supplied for use with other switch centers.
- 15' passenger side cable, optional 25' driver side exit.
- Extreme low profile mounting.
- Five year HDP<sup>®</sup> Heavy-Duty Professional warranty.

# Building your lightbar is easy with Whelen's WeCad™ Lightbar Designer program!

Go to www.whelen.com - Automotive - Tech Support -Software downloads, and download "WeCad Lightbar Designer". The WeCad Program will prompt you as to which modules and how many may be used together, along with a suggested retail price as you go.

- 1. Choose front or rear facing bar, and length.
- 2. Add ICC light if desired.
- 3. Choose light modules.
- 4. Select light module color.

# **Chassis Lightbars**

Pillar mount

## **Outer Edge® Lightbar Series**

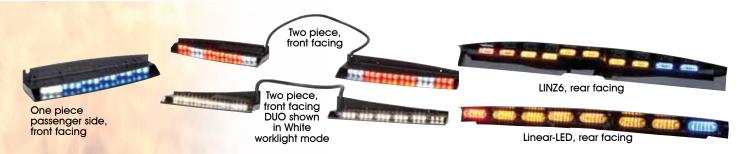

- Two independent left and right side housings with multiple lightheads per section that are custom designed to mount on the outside of the vehicle.
- Vehicle specific mounting.
- Pillar version mounts on sides of rear window of vehicle with six LINZ6<sup>™</sup> lightheads and two Vertex<sup>™</sup> lightheads for warning only.
- Horizontal version mounts on upper rear window of the vehicle for warning or Traffic Advisor™ modes.
- Traffic Advisor sequence allows for 4 patterns. Requires customer supplied switches or optional Whelen TADCTL1 Traffic Advisor control head.
- Available in Amber, Blue, White and Red with Clear non-fluted lenses.
- Fully encapsulated for superb moisture and vibration resistance.
- Five year HDP<sup>®</sup> Heavy-Duty Professional warranty.

# **Internal Lightbars**

## Inner Edge<sup>®</sup> Lightbar Series

- Upper front facing and lower rear deck interior lightbar series.
- Easy to install and designed to blend with vehicle's existing interior.
- Requires customer supplied switches or control head, purchased separately.
- Order by choosing the housing model to your specific vehicle model, then choose LED lighthead modules and colors.
- Powder coated aluminum housing.
- SAE Class 1 Certified and meets California Title XIII specifications.
- Five year HDP<sup>®</sup> Heavy-Duty Professional warranty.

#### Front Facing Lightbars:

- Extreme low profile, measuring only 3/4" (19mm) high.
- Mounts snugly against windshield using existing visor anchor points without drilling holes.
- Available in 3-LED, 6-LED and 6-LED DUO<sup>™</sup> modules. DUO modules have 2 colors in same module, White is second color.
- Forty Scan-Lock<sup>™</sup> flash patterns.
- Available as single passenger side or a connected two piece driver/passenger unit.

#### **Rear Deck Lightbars:**

- Available in Linear-LED<sup>®</sup> or LINZ6<sup>™</sup> modules for warning or Traffic Advisor<sup>™</sup> applications.
- One piece low profile textured housing.
- Installs using existing child-restraint brackets, without drilling holes.

## **Responder<sup>®</sup> Series** Mini Lightbars

#### Responder HD Halogen Mini Lightbars

- Two rotating halogen lamps with 135 RPM motor assembly.
- Permanent or magnetic mount.
- Optional magnet mount kit, and color filter kit.
- Three year warranty on motor assembly.

#### Responder HD Super-LED<sup>®</sup> Mini Lightbars

- Heavy-duty Class 1, J845 Certified.
- Super-LED dual level modules with built-in electronic flasher.
- SignalAlert<sup>™</sup> flash pattern standard in magnetic and magnetic/suction mount models.
- Five year HDP® Heavy-Duty Professional warranty.

#### Responder LP Low Profile Mini Lightbar

- Low-profile, mini lightbar with choice of LIN6™ or CON3™ Super-LED modules.
- Choose heavy-duty extruded aluminum base or polycarbonate base.
- DUO<sup>™</sup> technology LIN6 model available with Blue and Amber LEDs in the same module allowing it to flash different colors.
- Provides 360° of high impact warning coverage.
- Permanent mount models include 6" pigtail. Magnetic and magnetic/suction versions include 10' straight cord with cigar plug and LED indicator On/Off switch and pattern control switch.
- Five year HDP Heavy-Duty Professional warranty.

Replace \* in model number with color desired: A=Amber; R=Red; B=Blue; C=White; G=Green To order multi color LP Series, use R1§§§00 and R2§§§00. Replace § with number of color modules wanted. Order of colors is Red, Blue, Amber, White.

THE USE OF ANY MAGNETIC OR MAGNETIC/SUCTION MOUNTED WARNING BEACON ON THE OUTSIDE OF A MOVING VEHICLE IS NOT RECOMMENDED AND IS AT THE SOLE RISK OF THE USER.

#### Options

90 lb. pull magnet mount kit with cord and plug for HD Series • Color filter for rotators for Halogen HD Series

- Universal permanent mount version easily retrofits most competitive model footprints, as well as Whelen R2DX models.
- Permanent bolt mount versions include 6" pigtail.
- Magnetic mount versions include four 50 lb. pull magnets, 10' straight cord with in-line fuse and cigar plug with On/Off switch.
- Magnetic/suction versions include two 110 lb. pull magnets over-coated with non-marring rubber with suction control.
- Multi-color configurations available with Clear and color domes and filter kits.
- Warranty: Strobe = 2 year on power supply, 6 months on strobe flash tube / Rotator Assembly = 3 year

Replace \* in model number with color desired: A=Amber; R=Red; B=Blue; C=White; G=Green

THE USE OF ANY MAGNETIC OR MAGNETIC/SUCTION MOUNTED WARNING BEACON ON THE OUTSIDE OF A MOVING VEHICLE IS NOT RECOMMENDED AND IS AT THE SOLE RISK OF THE USER.

#### **Options**

Two halogen take-down lights
 Two halogen Alley lights
 Two 400 Series Linear-LED lightheads
 Four 400 Series Linear-LEDs
 Two inboard directional Super-LED lightheads for front facing lightbar only

## Mini Freedom Rotating Super-LED Lightbars

- Start with two or four corner Rota-Beam<sup>™</sup> modules.
- 100% solid-state Rota-Beam modules give the sweeping effect of a traditional halogen rotator without the mechanical failures and blown bulbs.
- Cruise light model standard for corner modules.
- Add one additional center front or reat Rota-Beam modules with mirrors.
- Rota-Beam modules available in Amber, Blue, Red and White.
- Color or Clear lenses.
- Five year HDP Heavy-Duty Professional warranty.

## **B6T and B6LED Series Combination Tailboard Lighting**

- Designed for use in NFPA 1901 Specification lighting packages, this series combines 360° warning and directional lighting in a single fixture.
- LED design offers extremely low amp draw while maintaining superior light output.
- Super-LED<sup>®</sup> beacon and 700 Series Linear-LED<sup>®</sup> have built-in flashers providing multiple flash patterns, plus cruise light mode on LED beacon.
- Halogen rotating beacon features double roller ball bearing design, with parabolic reflector.
- Halogen flashing has a built-in electronic flasher. When used in pairs, B6 Series Five year HDP® Heavy-Duty Professional warranty on LEDs.
- Three year warranty on halogen motor assembly.

#### R316 & R416 Rota-Beam<sup>™</sup> Rotating Beacons

- 100% Solid-state, no moving parts, no motors to wear out or malfunction.
- Conformal coated electronics provide moisture and vibration resistance.
- Photocell for low power, optional.
- Cruise light.
- Synchronizable with up to eight other Whelen 360° beacons.
- Permanent flat mount model supplied with six input pigtails.
- Magnet and magnetic/suction mount models supplied with a 10' straight cord, cigar plug with LED indicator On/Off switch and pattern control switch.
- Five year HDP<sup>®</sup> Heavy-Duty Professional warranty.

## Raider<sup>™</sup> Super-LED<sup>®</sup> Series

- Interior or exterior use.
- Unique slide bolt housing offers versatile mounting, horizontal, vertical or even upside down.
- Pairs of single units may be synchronized to each other or to other like Whelen sync products.
- Dual units are synchronized together. Each lighthead has its own Scan-Lock wire for alternate or simultaneous flashing the two lightheads as well as pattern control.
- Five year HDP Heavy-Duty Professional warranty.

#### PAR-36 & PAR-46 Hand Held Spot/Floodlights

- Hand held spot/flood combination optic light.
- Rugged rubber shroud and handle, Black powder coated mounting.
- 90# pull magnet mount with 8' coiled cord and cigar plug.
- Waterproof durable built-in push-button On/Off switch.
- Replacement lamps available.
- Five year HDP® Heavy-Duty Professional warranty.

## Pan & Tilt<sup>™</sup> Super-LED® Spotlight

- Wired or wireless controlled spotlight.
- Wireless controller mounts anywhere in easy access on your vehicle and provides smooth control of light without long cable runs.
- Proportional push-button control for quick and easy operation.
- Low amp draw.
- Tilts 90° up and 20° down.
- Pans 420° horizontally.
- LEDs are rated for thousands of hours.
- Defaults to home position after use.
- Size: 8-3/4" (220mm) H x 7-3/4" (196mm) Dia.
- Five-year HDP<sup>®</sup> Heavy-Duty Professional warranty.

#### Safety Site<sup>™</sup> Super-LED<sup>®</sup> Traffic Control and Landing Zone System

- Super-LED light modules designed for temporary warning.
- Safe, environmentally friendly alternative to flares.
- May be used vertical or horizontal
- (for emergency aircraft landing zone identification).
- Encapsulated electronics for moisture and vibration resistance.
- Visibility range, five to seven miles.
- Battery life approximately 100 hours.
- Five year HDP Heavy-Duty Professional warranty.

## Pioneer<sup>™</sup> Surface Mount

- Combination Spot/Floodlight with slim surface mount housing in Chrome or Black.
- Eliminates body cut-outs and adds moisture-resistant protection for your vehicle.
- Uniquely designed molded two part silicone grommet seals the 1" wire entry.
- Patent Pending optic design projects light directly down at 5° arching up to 90°.
- Simulates bright midday summer sunlight.
- Two foot (609mm) cable.
- Instant On/Off with no ramp up time or high current in-rush.
- DC models meet SAE 1113-42 Class 5 testing for EMI. They emit no EMI.
- Rated to last thousands of hours with remarkable bright light.
- Built-in nylon screw grommets eliminates galvanic corrosion.
- Rugged powder coated aluminum housing.
- AC models are coming soon pending UL® Listing.
- Five-year HDP<sup>®</sup> Heavy-Duty Professional warranty.

#### **Pioneer SlimLine**<sup>™</sup>

- Rugged die-cast powder coated housing.
- Rated to last thousands of hours with low amp draw.
- Available in 12 or 24 VDC.
- Single unit comes standard with 8° lens. Additional 40° horizontal x 20° vertical flood lens also supplied.
- Dual unit comes standard with two 8° lenses. Two additional lenses supplied for floodlight dispersion of 40° horizontal x 20° vertical and 8° spot/40°flood combination.
- Powder coated universal bail mount works for vertical or horizontal mounting.
- Recessed housing available in straight or fixed 15° with Chrome trim ring.
- Low profile pedestal mount models available.
- Five year HDP<sup>®</sup> Heavy-Duty Professional Warranty.

## WHELEN

## Pioneer Quad<sup>™</sup> 4 Lamp - 120 VAC

- Four panels of Pioneer Plus<sup>®</sup> high intensity lightheads combined into one powerful work light.
- Floodlights are UL® Listed.
- Flood/8° Spot combination pending UL® approval.
- All models are 120 VAC.
- 120 VAC models will operate using a generator providing floodlighting at a distance away from the vehicle's voltage source without significant voltage drops.
- Solid-state electronics and lamps are rugged and reliable, eliminating the high cost of lamp or ballast replacement.
- Instant On/Off eliminating ramp-up time and high current in-rush.
- Long life LED operation with low current draw and low operating temperature.
- Rugged die cast aluminum, powder coated housing, available in White or Black.
- All models include supporting hardware.
- Removable handle standard on pedestal and pole mount models.
- Pioneer Series simulates bright midday summer sunlight.
- Engineered thermal design keeps LEDs running cool and efficiently, eliminating decreased diode output over long hours of operation.
- Five year HDP® Heavy-Duty Professional warranty.

## **Pioneer<sup>™</sup> Series** Floodlights

- Floodlights are available in four intensities.
- Solid-state electronics and lamps are rugged and reliable, eliminating the high cost of lamp or ballast replacement.
- Pioneer floodlights are instant On/Off eliminating ramp up time and high current in-rush required by high intensity discharge and other light sources.
- Pioneer provides long life LED operation with low current draw and low operating temperature.
- Pioneer LEDs operate at very high light efficiency producing high lumen output per watt.
- Floodlights can be flashed for added secondary warning in "Clearing Right of Way" mode. External flasher required.
- Rugged die cast aluminum, powder coated housing.
- Available in 12, 24 VDC and UL® (pending) 120 VAC.
- 120 VAC models will operate using a generator to provide floodlighting at a distance away from the vehicle's voltage source without significant voltage drops.
- A wide range of mounting options.
- Removable handle standard on pedestal and pole mount models.
- Recessed housing mounts straight out or 15° fixed downward angle to maximize light effectiveness.
- Pioneer Series simulates bright midday summer sunlight.
- DC Pioneer models meet SAE 1113-42, Class 5 testing for EMI.
- HDP<sup>®</sup> Heavy-Duty Professional five-year warranty.

## Pioneer<sup>™</sup> Series Pole Mounting Options

#### 3000, 3100 & 3050 Series

(Lighthead Purchased Separately)

- Rugged extruded aluminum AC and DC pole assemblies.
- Side and Thru Body mount versions.
- Three conductor internal wire input for AC/four conductor for DC models.
- Side mount poles available in 12" or 20" outer body, 57" adjustable pole assembly.
- New 3050 Series 30", 40" & 50" side mount, for use with 120 VAC Pioneer & Pioneer Plus Spot/Floodlights.
- Poles and outer bodies anodized to eliminate corrosion and yellowing.
- Optional lower side mount cradle bracket with electromagnetic sensor indicates if the pole has been seated properly into the cradle for travel (customer supplied warning indicator light).
- Requires Pioneer with pole/pedestal mount adapter (purchased separately).
- Silver powder coated non-adjustable stand-off mounting brackets available in 2", 3", 5" and 7".
- Custom pole lengths available. Download Pioneer Designer Program to design custom pole assemblies.
- Five-year HDP<sup>®</sup> Heavy-Duty Professional warranty.

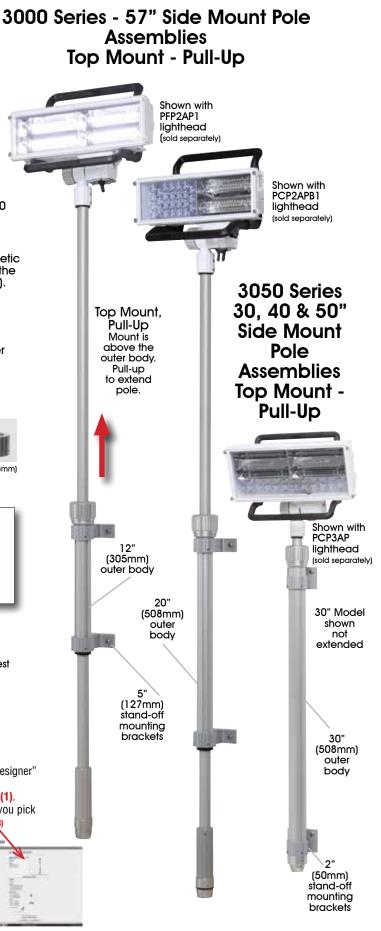

#### Side mount stand-off mounting brackets

#### Pioneer<sup>™</sup> Designer Program

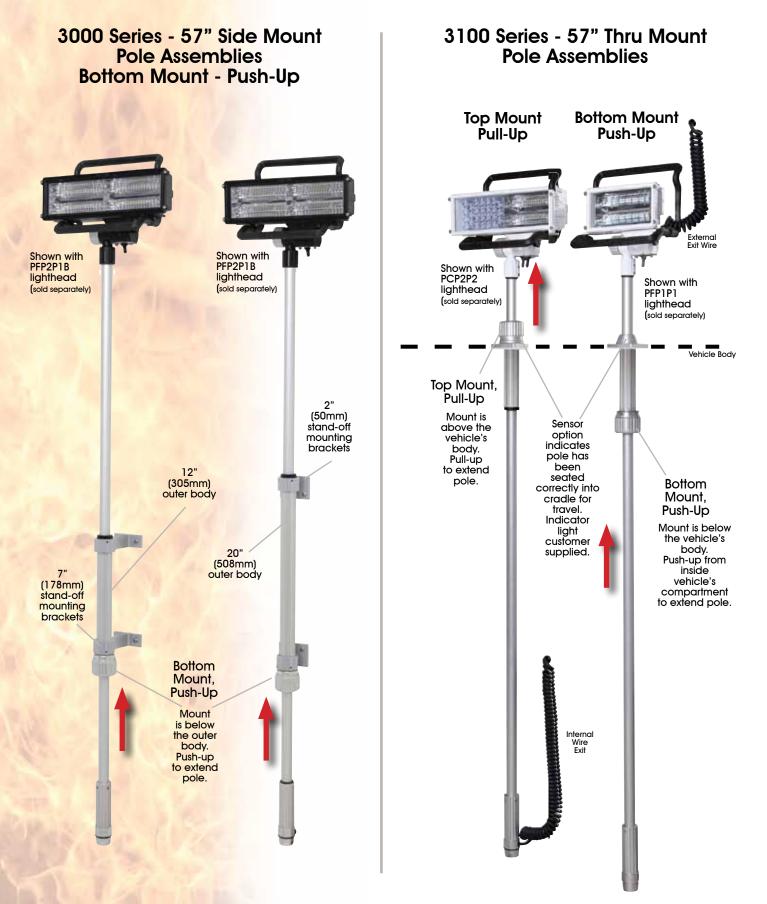

Build or customize your Pioneer lighthead mounting with "Whelen's Pioneer Designer" download from our website, **www.whelen.com** From the home page, go to **Automotive**, then **Tech Support and Downloads (1)**. Choose **Pioneer Designer** and click on download (2). Pioneer Designer lets you pick and choose options and enter custom pole and lighthead requirements (3). (3)

WHELEN

## **Pioneer<sup>™</sup> Series Mounting Options**

#### 3200 Series Folding Tripod **AC Pole Assemblies**

(Lighthead Purchased Separately)

- Rugged extruded aluminum AC tripod assemblies.
- Large 50", medium 40" and small 30" models.
- Tripod models available are:
  - Wireless for use with ground tripod.
  - With inner coil cord without plug.
  - With inner coil cord with plug.
  - With loose external coil cord for top wire exit with plug.
  - With loose coil cord for external top wire exit without plua.
- All moving aluminum parts are isolated with nylon bushings for superior industry leading adjustment and fold outs.
- All inner poles, outer bodies and folding leas are anodized to eliminate corrosion and yellowing.
- Requires Pioneer with pole/pedestal mount adapter . (purchased separately).
- Optional tripod mounting cradle bracket with upper quick disconnect mount bracket.
- Optional ground tripod mounting bracket for all folding tripods.
- Five-year HDP<sup>®</sup> Heavy-Duty Professional warranty.

Lower folding tripod mounting cradle kit Model 87283001

NHELEN

## **3300 Series Ground Tripods**

(Lighthead Purchased Separately)

- Rugged White powder coated cast aluminum AC portable ground tripod.
- **Requires Pioneer with pole/pedestal mount** adapter (purchased separately).
- Includes stationary quick disconnect mount.
- Supplied with 12" cable.
- Available with optional plug.
- Five-year HDP Heavy-Duty Professional warranty.

Underneath side showing pin that recesses into stationary quick discon-nect mount, included with ground tripod for secure storage.

Quick disconnect mount attaches to around tripod mount.

Optional Model 87283002 ground tripod mount includes quick disconnect for 3200 Series folding tripod.

Finished assembly of ground tripod mounted on top of folding tripod pole with ground tripod mount.

cradle

# Lightheads - LED Warning

## M Series Super-LED® Warning

- Unique lens shape is completely illuminated.
- Patented Linear-LED<sup>®</sup> designed reflector assembly.
- Hard-coated lens resists scratches, chemical and UV damage.
- Surface mounted via two screws allows for easy installation.
- Lens and reflector are a sealed assembly.
- Lighthead is designed with the mounting screws located outside of the sealed lens/reflector assembly eliminating water infiltration.
- Built-in flasher models are synchronizable.
- Choose solid, left/right, top/bottom, in/out, or diagonal sequencing.
- Meets KKK 1822F, NFPA 1901, SAE, EC65 specifications.
- Includes California Title XIII compliant flash patterns.
- Five-year HDP® Heavy-Duty Professional warranty. .

### Lightheads - 508 & 810 Warning

#### Strobe & Halogen Surface Mount Lighthead Series

- Surface mount.
- Color outer lens.
- Strobe requires optional power supply, purchased separately.
- Strobe versions have soldered-in linear strobe tubes.
- Redesigned gasket material assures greater moisture resistance.
- Two sizes to choose from.

### Lightheads - Scenelights

#### Halogen, LED & Super-LED® Scenelight

- Halogen versions have snap-in bulb.
- 500 Series LED requires mounting option, purchased separately.
- Super-LED surface mounts, and are instant on with no warm-up time.
- 900 Series Super-LED are certified to meet
   KKK 1822-F requirements and AMD 024 Standard.
- LEDs have Five year HDP® Heavy-Duty Professional warranty.

### **Lightheads - Certifications**

Providing the finest, certified lighting for our customers is a priority at Whelen Engineering. As we are constantly upgrading and testing our products, it is impossible to print a document with all of the current information. Many of the lightheads shown in this catalog are certified but do not show that letter key at this time. Our customer service representatives will be happy to answer any questions you have on the current status of any lighthead and provide the proper documentation if needed.

- A..... KKK 1822-F Federal Ambulance Specification
- B .... CAC, Title 13, Article 22 (Red, Blue and Amber lightheads)

#### Warning Lamps and Devices

- C .... SAE J595 Flashing Warning Lamps for Authorized Emergency, Maintenance, and Service Vehicles (Jan 90)
- D .... SAE J845 360° Warning Devices for Authorized Emergency, Maintenance, and Service Vehicles (May 97) Class 1, Class 2, Class 3
- E..... SAE J1318 Gaseous Discharge Warning Lamp for Authorized Emergency, Maintenance, and Service Vehicles (May 98) Class 1, Class 2, Class 3

#### **Test Procedures and Materials**

- F..... SAE J575 Test Methods and Equipment for Lighting Devices & Components for use on Vehicles less than 80" (2032mm) in Overall width (Jun 92)

### **Flashers**

### WHELEN

#### LED and Halogen Flashers

- Ambulance flashers have LED service indicators, short circuit plus thermal protection and are for internal use only.
- Model AFM1660 has two-wire design.
- Model AFM560 has one wire design with quick install, high current terminal block.
- Model AFL530 is one wire design with quick install 7-position screw terminal block.

### Siren Systems

#### CenCom Sapphire<sup>™</sup> Remote Light & Siren Control System

- Control warning lights, siren and Traffic Advisor™ functions from a single keypad.
- Integrated WeCan<sup>®</sup> serial port.
- LED indicator lights for simple trouble shooting.
- Easily accessible fuses and connections.
- Heavy-duty power and output connectors.
- Easy program configuration with CenCom Sapphire software, includes ability to configure lightbar.
- Configured programs may be extracted, modified and stored for future use.
- A USB port on Amplifier Control Module provides easy access for programming.
- Each button is individually customizable for different types, ie. press on/press off, momentary, etc.
- Control head backlighting intensity can be adjusted.
- Push-buttons include standard function labels.
- Operates one or two 100 watt siren speakers.
- Meets or exceeds all applicable SAE, California Title XIII and NFPA requirements with various Whelen speakers.
- Five year warranty on amplifier.

### Siren Systems

#### CanTrol<sup>™</sup> WC Light & Siren Integration System

- Program and control all the lighting, Traffic Advisors<sup>™</sup> and siren functions in your vehicle.
- WeCan<sup>®</sup> lightbar plugs directly into the amplifier/control module and is programmed by the CanTrol software.
- Easy to configure using Windows application program.
- Pre-configured programs may be modified and stored.
- Eight inputs; four for use on positive or ground switching, and four for use on positive switching only.
- Three analog inputs for temperature sensor, ambient lighting, etc.
- All inputs have diagnostic indicator.
- Integrated battery voltage monitor.
- Programmable for Hands-Free operation.
- Built-in system shutdown allows system to operate for up to four hours after vehicle is turned off.
- Operates one or two 100 watt siren speakers.
- All outputs have both short circuit/over-current protection.
- Meets or exceeds all applicable SAE, California Title XIII and NFPA requirements with various Whelen speakers.
- Five year warranty on amplifier.

#### Combination, Hand Held and Self-Contained

- Broadcaster<sup>™</sup> mobile digital voice recorder and playback unit is for use with any emergency vehicle's siren system will allow the radio repeat function to playback a 30 second pre-recorded message and will allow live voice and switchable siren tone functions.
- Economic WSS Series has 4 modes of operation.
- HHS Series is programmable. USB input from PC or laptop makes programming easy. Microphone overrides all siren functions. Meets Class A requirements of SAE, AMECA, KKK1822 and California Title XIII specifications.

EPSL1

- GAMMA2<sup>™</sup> has 2 auxiliary switches and meets SAE Class A with two 100 watt speakers. Meets California Title XIII requirements.
- Epsilon<sup>™</sup> Series is an economical full featured self-contained electronic siren. Meets SAE Class A and California Title XIII.

### WHELEN

#### **295 Series Electronic Sirens**

- All sirens can drive 1 or 2 100 watt siren speakers.
- Combination On/Off and horn ring transfer switch.
- Solid-state over/under voltage shutdown and output short circuit protection.
- Input polarity protection.
- Models available with SI-TEST<sup>®</sup> a silent, self-diagnostic indicator of siren or speaker failure.
- Adjustable bail bracket allows mounting in a variety of positions.
- Locking quick disconnect plug.
- Siren functions are backlit for ease of visibility.
- 295SDA1 switches can be programmed to activate any of the 8 momentary switches. Momentary switches can be programmed to be activated as either a push-on/push-off, momentary, flashing, timed output or Traffic Advisor™ control.

295HFSDA	Second amplifier kit for dual siren amplifier use for 295HFS2, 295HFS3 and 295HFS4

#### WHELEN

#### **295 Series Electronic Sirens**

- All sirens can drive 1 or 2 100 watt siren speakers.
- Combination On/Off and horn ring transfer switch.
- Solid-state over/under voltage shutdown and output short circuit protection.
- Input polarity protection.

WPKM1

- Models available with SI-TEST<sup>®</sup> a silent, self-diagnostic indicator of siren or speaker failure.
- Adjustable bail bracket allows mounting in a variety of positions.
- Locking quick disconnect plug.
- Siren functions are backlit for ease of visibility.

### Siren Speakers

#### WHELEN

#### Siren System and Speakers

- Howler system is an add-on to any 100/200 watt existing warning system adding lower frequency reverberating tones able to penetrate high noise, traffic situations and vehicles. Includes siren amplifier and one or two speakers. Works with most siren amplifiers.
- SA315P & SA314 Series for bumper, concealed or flange mount, installs to vehicle's cross member in minutes.
- UnderPro<sup>™</sup> ambulance speakers are left or right side mounted.
